And The Fourth

A fourth spatial dimension is presented by analogy with the life of A Square, 2-D citizen of Flatland, whose existence is, quite literally, turned around by his encounter with a 3-D sphere. Non-Euclidean geometry and curved space becomes easier to grasp with reference to Flatland and

till now have only been treated separately. Finding a perfect analogy in the situation of the geometrical characters in Flatland, Professor Rucker continues the adventures of the two-dimensional world visited by a three-dimensional being to explain our three-dimensional world in terms of the fourth dimension.
